

MESSAGE

The U.P. College of Architecture is proud to finally see to fruition the maiden issue of MUHON, the official journal of the college. The journal will serve mainly as a regular venue by which faculty, students, and staff alike may be able to disseminate their technical papers and research outputs to the public. With this publication we can now proudly record our activities and the technologies which we will develop, and share this new knowledge with the public for their use.

For this particular issue, I would like to introduce to you my plans and programs that we have formulated and which we will be implementing during the next three years. These plans and programs are briefly explained in the article entitled "In the Service of the Nation." This mission paper will hopefully guide the U.P. College of Architecture in the next few years.

Congratulations to my colleagues for this wonderful achievement!

CRISTOPHER S.P. ESPINA

Dean

U.P College of Architecture
