

A Journal of Architecture, Landscape Architecture, and the Designed Environment

MUHON is a forum for discussion of ideas on the designed environment published by the College of Architecture of the University of the Philippines in Diliman. This publication seeks original work and welcomes contributions related to a variety of issue areas. All submitted works should not have been previously published.

MUHON considers for publication research, technical and philosophical papers, as well as opinion essays. Written works should be well-organized, clearly written, interesting, coherent, intelligently argued, and accurate with regard to attributions.

MUHON serves as a vehicle for publishing creative and professional works of architects in the academe. These documented works must highlight new bodies of knowledge applied to or generated by the projects.

MUHON encourages prospective contributors to view their efforts as exercises on critical inquiry. Great emphasis will be placed on the idea content of the work, its scholarly depth, and on the development of arguments.
