

University of the Philippines
College of Architecture

Integrated Graduate Program

GDipLS

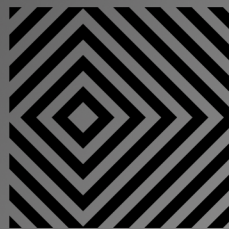

Graduate Diploma in
Landscape Studies

A one-year program that will enable the non-Bachelor in Landscape Architecture degree holders to proceed to the Master of Tropical Landscape Architecture and, thereafter, take the LA licensure exam.

MArch

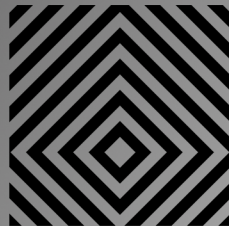

Master of Architecture

An updated two-year program that is significantly reconfigured to incorporate new design and design policy-making practice, innovative design conceptualization processes, emergent industry needs.

MAAS

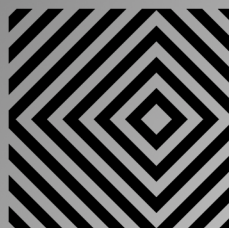

Master of Arts
in Architecture Studies

A non-thesis two-year program designed for non-B.S. Architecture degree holders, who do not intend to take the Architecture licensure exam to enroll and immerse in spatial theories, concepts and strategies.

MTLA

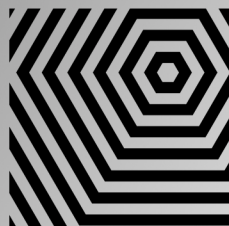

Master of Tropical
Landscape Architecture

A revitalized two-year program, that builds on the old MTLA program while bringing in the latest and emergent design concepts and approaches for outdoor environments in city and countryside settings.

PhDDBE

Doctor of Philosophy in the
Designed and Built Environment

A four-year program with 2 tracks: Track A (39 units) for Architecture/ Landscape Architecture-related fields, Interior Design, Urban Planning, Civil Engineering; Track B (48 units) for all other fields, e.g. humanities, social science, natural science, arts and others.
