

Philippine Engineering Journal
Volume XLIII, Number 1: June 2022

| CONTENT | PAGE |
|--|---------|
| Noriza T. Sadie, Maria Antonia N. Tanchuling and Ariel C. Blanco Landfill Site Suitability Mapping Using Fuzzy Multi-Criteria Decision Analysis and GIS: Case of Quezon City, Philippines | 1-22 |
| Imee Bren O. Villalba, Eric C. Cruz and Andrei Armani A. Adame Assessing the Effects of Different Typhoon Tracks on Storm Surge Generation in Manila Bay using ADCIRC | 23-46 |
| Darvy P. Ong and Jhoanna Rhodette I. Pedrasa Identifying Factors Influencing Engineering Undergraduate Student Graduation in UP Diliman | 47-64 |
| Raymond Freth A. Lagria, Eugene Rex L. Jalao, and Joanna Z. Resurreccion A Text Mining Framework for the Classification and Prioritization of Disaster-Related Tweets for Disaster Response | 65-88 |
| Sophia Mariya Kysha G. Camacho and Oscar Victor M. Antonio Jr. Impacts of the COVID-19 Pandemic on the Philippine Construction Industry: Problems, Opportunities, and Risk Management Methods of National Capital Region-based Contractors | 89-110 |
| Pocholo Miguel A. De Lara, Trisha Marie D. Morado, and Rosalie B. Reyes Estimation of Net Absolute Sea Level Change in Mogpog, Marinduque using Persistent Scatterer Interferometric Synthetic Aperture Radar-derived Vertical Land Motion and Tide Gauge Measurements | 111-136 |
| Jennifer F. Callanga, Louis Angelo M. Danao, and Binoe E. Abuan Structural Response Analysis of a Fiber-Reinforced Composite Horizontal Axis Tidal Turbine Blade using Blade Element Momentum-Derived Blade Loading | 137-158 |
