Milk

Ballpoint pen and digital painting

9.8" x 9.8"

The body part which is mostly seen with malice by men is more than what is seen. The woman milks for her child. The woman milks dreams, concepts, love. She milks life, and she does it good.

This is a
celebration of
one's own
holistic self.

Soft Skills, Strong Skills

Photograph on giclee

14" x 8.8"

People use pussy to ridicule someone who is soft or afraid, when in fact, pussies are the total opposite; it's strong. Give me another body part that stretches out to get a human out of this world. All this time, our "soft," vulnerable, or emotional side is what makes us endure.
