Book Review Guide

As we strive to best understand the needs and interests of social science scholars, surveying and reporting on recent cutting-edge scholarship is a responsibility of *Social Science Diliman: A Philippine Journal of Society and Change (SSD)*. Thus, reviewing books is also one of SSD's primary considerations.

Reviews are scholarly works that showcase and critically assess emerging trends and developments in knowledge production. It also allows the reviewer to engage with both the author of the book and its readers. Reviews should be approximately 1,200-1,500 words with the following content:

- Introduction, including author's name, book title, and the main theme
- Summary of content
- Analysis and evaluation of the book
- Conclusion
- Reviewer's name, affiliation, and institutional email address appears at the lower right of the review

Reviewers are expected to compose thoughtful and engaging critiques that explain the basic arguments of a book, evaluate its strengths and weaknesses, and place the work within a broader scholarly field as they address readers outside their area of specialization. It should also include bibliographic information, if necessary.

A review editor, who is also a member of the SSD Editorial Board, manages the book review section. Reviewers are chosen by invitation only, based on an assessment by the review editor or the editorial board regarding the appropriate match between book and reviewer.
